WorkSync
DISCOVER • ALIGN • CAPTURE

WORKSYNC SERVICES · HSE

A safety program the crew will actually run.

Not a binder for the audit. A program built task by task with the people who do the work, measured with leading indicators, and owned by your team.

WHAT WE HEAR

> **Our safety system exists for the audit, not for the crew.**

> **Near-miss reporting is low, and I do not believe that is because nothing is happening.**

HOW WE BUILD IT

DISCOVER
Hazardous tasks assessed one at a time.

ALIGN
A written instruction and competency per task.

CAPTURE
Leading indicators on the crew's own device.

WHAT YOU KEEP

Safety management system	Hazard register
Competency matrix	Procedure library
Digital JSA	Near-miss capture
Contractor competency	Leading indicators

WHAT THIS HAS DONE BEFORE, AND THE BASIS FOR EACH

60%

Year before
Year after

fewer recordables year over year, 3.1M man-hours, 6% more work

476

sites on one live HSE field view, with AI-drafted contractor reports

60%: founder experience, a safety program Michael Atkin led inside Maverick Natural Resources. 476: delivered by WorkSync for Caturus Energy.

Start with a 2 to 4 week assessment.

Fixed fee. You keep the findings either way.

01 **Map one hazard, in full, with the crew that runs it**

02 **A cold-eyes health check of your safety program**

03 **Revamp your life-critical program**
