WORKSYNC SERVICES · THE FIRST STEP

The assessment: 2 to 4 weeks to the number.

One asset group, the objective you are judged on, a fixed fee. You leave with the number and the plan, whether or not you hire us for the rest.

WHAT YOU SEND

- One asset group you choose.
- The objective you are judged on this year.
- Access to the data you already keep, whichever the objective needs: production, SCADA, work orders, HSE or engineering records.
- A sponsor, and time with the people who run the work.

WHAT YOU LEAVE WITH

- **The current state, as it actually runs**
- **The opportunity, priced on your own data**
- **A baseline you sign off**
- **A roadmap with an owner on every line**
- **The first yes for your objective**

HOW THE 2 TO 4 WEEKS RUN

1. **Understand the current state**
   The operation as it actually runs, read with the people who run it.
2. **Quantify the opportunity**
   Priced in dollars on your own data, against a baseline you sign off.
3. **Leave with a roadmap**
   What to do next, who owns each line, and what it takes.

THE FIRST YES, FOR EXAMPLE

01 Stand up a safety program the crew will use. One hazard, mapped in full with the crew that runs it.

03 Improve the efficiency of field operations. One operating area, ranked and routed. The assessment prices it, and the first month proves it.

04 Decrease downtime on what carries the value. Failure history rebuilt for one field, with run life per well.

05 Centralize operational data. An integration inventory and a data path for one use case.

The other five are on their objective sheets.

WHAT HAPPENS NEXT, ONLY IF THE NUMBER IS WORTH IT

Design
Co-built with your team

Stand up
Sprint delivery

Run and transfer
Yours to run

Working inside your rules. We work under your MSA, carry our own insurance, register in your contractor prequalification system, and follow your site orientation and access rules. A founder sponsors every engagement, and the delivery team is named in the proposal.

Send us the objective you are judged on.

Reply with the objective and one asset group. We send a one-page scope and a fixed fee in writing. You keep the number either way.
