WORKSYNC SERVICES

Turn critical initiatives into operating reality.

Operations, engineering, safety and technology in one team, taking complex initiatives from strategy into the operating model, the technology and the field.

> **Consultants stop at the strategy. Software vendors start at the tool. We bridge the gap, and you keep the model.**

WHAT YOU WILL HAVE

Crews on the work worth the most

Capital that follows risk

Initiatives in the field, not on a slide

Data and software your people use

A program your team runs

The assessment returns the current state, the opportunity priced on your own data, and a roadmap with owners.

HOW AN ENGAGEMENT RUNS

01 **ASSESS**

02 **DESIGN**

03 **STAND UP**

04 **RUN AND TRANSFER**

WHAT THIS HAS DONE BEFORE, AND THE BASIS FOR EACH

60%

Year before
Year after

fewer recordables year over year, 3.1M man-hours, 6% more work

476

sites on one live HSE field view, with AI-drafted contractor reports

200 h to 20 min

By hand
FlowSync

estimated time to build a hydraulic model from your data

60%: founder experience, a safety program Michael Atkin led inside Maverick Natural Resources. 476: delivered by WorkSync for Caturus Energy. 200 h to 20 min: runs today in FlowSync, engineering estimate.

Start with a 2 to 4 week assessment.

Fixed fee. Defined scope. We work under your MSA and site rules, and the delivery team is named in the proposal. You keep the number either way.
